Jayson Batoon

Faculty, College of Information &
Communications Technology
Bulacan State University

Dear Mr. Batoon,

I hope this letter finds you well. I am writing to request your participation in evaluating a programmed system developed by our students as part of their thesis project in the BS Mathematics with Specialization in Computer Science program at the College of Science, Bulacan State University. Your expertise and insights as an IT expert/industry practitioner would be invaluable in assessing the quality and effectiveness of the system.

The evaluation will be based on the ISO 25010:2023 standard, which provides a comprehensive framework for assessing software quality. We have prepared a detailed evaluation instrument that includes both quantitative and qualitative questions to capture your feedback.

Your participation will involve

- (1) reviewing the programmed system, and
- (2) completing the evaluation instrument, which includes rating various aspects of the system on a scale of 1 to 10 and providing detailed feedback through open-ended questions.

Your feedback will play a crucial role in helping our students improve their system and gain valuable insights into industry standards and expectations.

Please find the evaluation instrument attached to this letter. Below, you will find the details of the student group and their thesis project:

Thesis Project Title: Design and Implementation of a Shelter Location-Allocation System in Calumpit, Bulacan

Group Members: Bryan Jett T. Calulo, Elijah Iñigo C. Fabian, Lovely Angeline OL. Cunanan

Thesis Adviser: Valentine Blez L. Lampayan, Ph.D.

If you have any questions or need further information, please do not hesitate to contact Bryan Jett T. Calulo thru mobile at 09151120027 or thru email at bryancalulo@gmail.com

We greatly appreciate your time and effort in supporting our students' academic and professional development. Your contribution will make a significant impact on their learning experience.

Thank you for your consideration and support.
